### About World PM2022

World's powder metallurgy congress and exhibition is set to make its first visit to France in 2022, and is being held in Lyon 09 - 13 October 2022. World PM2022 Congress & Exhibition, which is organised and sponsored by the European Powder Metallurgy Association (EPMA), is being held at the Lyon Convention Center (LCC), a modern purpose built venue, easily reachable from the centre. The combination of an all topic world-class technical programme and a state-of-the-art exhibition will provide the ideal networking opportunity for suppliers, producers, and End-Users to discover the latest trends and innovations in the industry.

### Congress Proceedings

Presentations from the oral and poster technical sessions will be published in the Congress proceedings and these will be made available to delegates at the time of the Congress. EPMA also has agreements with ProQuest LLC, Cambridge Scientific Abstracts, EBSCO and Scopus to enable the wider circulation of papers presented at EPMA conferences and to enhance their standing in the academic community. Therefore, the papers from World PM2022 will subsequently be made available to the subscribers of these products after October 2022. Papers from past Euro PM and World PM Congresses are also available on [www.epma.com](http://www.epma.com)

Language  
English will be the official language of the congress.

### Congress Organisers

World PM2022 Congress & Exhibition is organised and sponsored by the European Powder Metallurgy Association (EPMA). EPMA, a non-profit organisation, is the leading trade association for powder metallurgy in Europe. Its key functions are to represent the interest of the European PM community and to promote PM technology throughout the world. Further information about services and membership can be found at [www.epma.com](http://www.epma.com)

### Abstract Submission

Abstracts should be submitted using the online submission form on [www.worldpm2022.com](http://www.worldpm2022.com) between 10 November 2021 and 19 January 2022. Abstracts must be between 100 and 150 words in length and give sufficient information to allow the TPC to evaluate the proposed presentation. Please note abstracts submitted after 19 January 2022 will not be accepted.

### To Present a Paper

Authors are invited to submit abstracts of papers for presentation in the Technical Programme. These should be of original and unpublished work. Commercialism in manuscripts, presentations, or visuals will not be permitted. Papers will be allocated to oral and poster sessions by the Technical Programme Committee (TPC), based on authors' wishes, overall evaluation, and limits of the time schedule. It is planned that oral sessions will each contain four presentations, with 20 minutes scheduled for each paper, including discussion time. Poster presentations will be located in allocated topic zones and will be on display for the duration of the event. The manuscript for all accepted papers should be no more than 6 pages and must be submitted through the online procedure by Wednesday 27 April 2022. When assessing submitted papers, the TPC will consider:

- The originality and novelty of the subject
- Critical study of a process, or a product in the course of development
- Study of the effects of fundamental scientific results on R&D
- Description of industrial achievements
- Technical/economic analysis of processes
- Comparisons with competitive processes or products

Abstracts can be submitted on the following topics | A more detailed topic list can be found at [www.worldpm2022.com](http://www.worldpm2022.com)

### Conditions

The text of all papers will be refereed by members of the TPC and they reserve the right to reject any paper that does not meet its evaluation criteria. The inclusion of a paper in the final programme will also be dependent upon: i. The submission of the manuscript by the official deadlines. ii. The receipt of the transfer of copyright agreement. iii. The presenting author completing their delegate registration and payment by the official Authors' deadline, Wednesday 08 June 2022.

Note to Authors: All costs relating to Congress participation, including registration (special rate for authors), travel, accommodation and subsistence expenses, will be covered by the author.

To Submit an abstract visit: <https://www.worldpm2022.com/call-for-papers/>

### The EPMA Keynote Paper Awards

Keynote papers are selected in 2 steps: When the TPC meet, they will carefully shortlist up to twelve abstracts in the KNP first selection then in May, a small committee will select the KNP winners based on their manuscripts. The Keynote papers will receive an extended 30 minutes slot for their presentation and a prize of €250, sponsored by the journal of Powder Metallurgy (Taylor & Francis). For a paper to be considered for Keynote status it should report original research or review a topic of interest to the PM community. It must not have been published or be under consideration for publication elsewhere.

### EPMA PM Thesis Competition 2022

This competition is open to all graduates of a European University whose thesis has been officially accepted or approved by the applicant's teaching establishment during the previous three years. Thesis, which must be classified under the topic of Powder Metallurgy, are judged by an international panel of PM experts, drawn from both academia and industry. Winners are awarded prizes of €500 and €1,000 for Masters and Doctorate levels respectively, sponsored by Metals - an Open Access Journal by MDPI; complimentary registration to the World PM2022 Congress & Exhibition courtesy of EPMA; and the opportunity of having their work published in the prestigious journal Powder Metallurgy. Submission is open now, deadline 20 April 2022. More information can be found about the EPMA Thesis Competition 2022 at: [www.epma.com/thesiscompetition](http://www.epma.com/thesiscompetition)

### Peter Brewin Poster Award 2022

This award celebrates the contribution made over many years by Dr Peter Brewin to the Association, both on its Board and Council, as well as, his successful period as Technical Director from 2001-2007. The Award forms an important and public recognition of the contribution made by poster authors to the EPMA's annual Congress. The Award will be in the form of a plaque and an honorarium of €250 to the poster author who, in the opinion of an independent panel of judges, has submitted and displayed the best overall poster at the event. All authors presenting a poster are automatically entered for the prize.

### Campfire Meetings

The inaugural Campfire Meetings held during Euro PM2019 were a huge success. Lots of interesting discussions were held resulting in many questions being answered and enhanced networking taking place. To submit a topic for a Campfire Meeting at World PM2022 visit [www.worldpm2022.com/campfires](http://www.worldpm2022.com/campfires)

## World PM2022 Exhibition

The World PM2022 Exhibition, held in parallel with the World PM2022 Congress, will offer an excellent opportunity for international suppliers to the PM industry to network with new and existing customers from throughout the powder metallurgy and associated sectors. If your company supplies the PM Industry with products or services, the World PM2022 Exhibition is the event you need to exhibit at, attracting many key PM decision makers, who could be your next customers. Exhibition stands are sold on a 'first-come-first-served-basis' with full details, including a copy of the exhibition floor plan, available on [www.worldpm2022.com](http://www.worldpm2022.com)

## About Lyon

With a rich history stretching back more than 2000 years, Lyon has taken shape over time, presenting visitors today with neighbourhoods that have a unique atmosphere and reflect the city's evolution.

Since its foundation by the Romans in 43 BCE, on Fourvière Hill, the city has expanded from west to east, building on the advantages offered by its two hills and two rivers.

Included on the list of UNESCO World Heritage Sites in 1998, Lyon's four historic districts cover 500 hectares, taking visitors on a journey back through time. Follow the guide, from Antiquity to the present day!

Lyon is the First Europe's city-break destination (WorldTravelAwards2016), the world capital of gastronomy and the most popular business tourism destination, outside Paris.
